A Free Lecture – The Celestial Warrior

THURSDAY

March 25th

URBAN REMEDY

1509 Abbot Kinney Blvd
VENICE, 90291

7pm

How can it be that, in the midst of darkness, the Light suddenly appears? How can you explain that in being in the opaque light that the ego generates, when asking for help from the Inner Being, the help comes in one way or another? What type of connection to God is it that does not require a particular state of mind in order to be present? This lecture will provide insights based on these inquiries as well as inspired action along the path of the razor's edge.

Pneuma Breathwork

SUNDAY

March 28th

LOCATION TBA

Pneuma is an integral educational system for self-realization that proposes a new vision of spiritual experience. It's a psychological and spiritual design for self-knowledge. Pneuma Breathwork offers a powerful and efficient psychotherapeutic and self-explorative technique that works with the expansion of consciousness. This is a wonderful introduction to *The Pneuma System* for everyone and provides an opportunity to experience the work outside of the ceremonial meditations.

Juan Ruiz Naupari is a contemporary shaman from an Inka lineage of high priests of Peru. His grandfather was known as a Paqo Runa, or "Holy Man" and passed his lineage to Juan. Juan has worked for 30 years with a counsel of Celestial Masters known as The Golden Eagle. The Masters have a system and teachings for the process of enlightenment known as *The Pneuma System*. This system includes Pneuma Breathwork, a ceremonial transpersonal experience of our inner Divinity. Juan teaches courses around the world in *The Pneuma System*, and specific courses with the power centers of the Earth: Peru, Egypt, Israel, Greece, Mexico, Mount Shasta CA, India, Tibet and the Gaden Shartse Monastery of southern India, to name a few.
